## Invasion of the Stuffed Animals

Rat Face and his gang set out to rule the world in this award-winning book. "We're gonna rule the world", Rat Face hissed as he scampered down the hallway of the elementary school. He was not what you would consider a normal, run-of-the mill neighborhood rat. He was fat, about the size of a purebred miniature Yorkshire terrier, but purebred he was not. His shaggy fur was the color of dirty dishwater. His teeth resembled rusty daggers. His long, quivering whiskers stuck out of his snout like worn, broken guitar strings..."

The puppet images of this bilingual tale were awarded the Special Prize by the International Jury of the Japanese Illustration Award 2018.

## A Mouthful of Stories

What happens when grown-ups tell stories to children instead of reading books to them? They offer a much more intense experience. Some of these shared magic moments and improvised fairy tales leave indelible traces in our memories, and some of them have become part of us. This book collects some of the former. Their tone is sometimes very personal and sometimes very general. Our hope is that this book will inspire readers to tell tales out loud and to listen to stories with their hearts.

## The Thirsty Troll – Little Viking Legendarium

In this “Scandinavian” series of stories, Dániel Varró takes the reader into the harsh world of the fjords. He conjures figures from northern and Celtic folklore, including leprechauns, mermaids, and mermen. We find a troll legend, a Finnish mini-epic, and parody of Hans Christian Andersen. We are even given a chance to be the heroes of a children’s fantasy story with Vikings. In these exciting worlds, which are full of adventure and wordplay, readers will recognize their own families, their friends, and, above all, themselves.

## Thursday, the Little Devil

Buzz, Thursday, and Sati, the smallest devil-kid, are never bored. Something is always going on in their home. This time, in an attempt to defeat the rodents who come looking for crumbs, their poor mother sends Thursday to the Cacodemon Miller To ask him for help chasing the mice away... These new stories, which are written in rhyming verse, will be particularly captivating for children age 3 and up, but the new protagonist, the amusing Thursday, will do doubt capture the imaginations of parents, grandparents, and great-grandparents too.

## Barney's Book

One could read *Barney's Book* as a sort of guidebook to the world of children. It reminds us that we do better to treat children as partners than to boss them around or indulge their every wish. The openness of the adult and his willingness to play make this a reading worth remembering. Amusing anecdotes, slips of the tongue, and word games mold Barney into a living character. *Barney's Book* was written with a linguistic precision and inventiveness that has made it compulsory reading in many schools.

## Dance of the Sea

The situations described in *Dance of the Sea* are familiar to any family with small children. A family embarks with relatives to spend the summer holiday at the seaside. The children try to make the long, boring trip and, later, the days by the sea more exciting, and they succeed. The main character is a little girl, who, together with her cousin, is constantly on the lookout for adventures, and they find them, whether on the train, in the campsite, or by the sea.

## Balthazar and the Flying Carpet of Tales

Margit Szöcs drew on her experiences as a grandmother as the inspiration for her newest storybook. Every day, her seven-year-old grandson Balthazar gives her new ideas. The stories capture everyday situations as they are perceived by the imagination of a child. Balthazar uses language in a manner that is almost palpable, rich with images, similes, and metaphors, and Szöcs is never afraid to introduce unusual words and expressions.

## Tili and Tilo

This humorous and playfully impudent storybook, which was inspired by the fantasy books which have become so popular in recent years, is both a tribute to many of the great classic stories and at the same time an impish reinvention of them. It interweaves elements from tales like *Snow White* and *The Little Mermaid* into its stories, but the prince never arrives to save the sleeping girl, for instance. Instead, he becomes a watchman at a parking deck. Neither does the little merman, who has magical powers, fall in love with the mermaid. Rather, he appears in a paper airplane.

This series does not intend to teach or instruct, but rather to nurture interest and kindle curiosity. The short dialogues acquaint children with the mysteries of physics in a language that is familiar and accessible to them.

Volumes of the series: *Where Do Stars Come From? Your First Book About Astrophysics; Why Does the Sun Shine? Your First Book About Velocity; How Does Time Slow. Your First Book about the Continuum.*

## Guzzlesaurus's series

Zoltán M. Kácsor's tale will be popular among dinosaur-mad children, but also among all readers who relish an entertaining page-turner rich with funny stories. And, of course, if you've ever wanted to take a dip in a bowl of fish soup or cross a field of popcorn, then this is the book for you, for in Dino Merryland, where the world's most peaceful Tyrannosaurus-Rex is heading together with a toothless raptor and a meddlesome vulture, all this is possible!

## Alone Around the World

A living legend, the first Hungarian sailor who sailed around the world in his own handmade boat, finally tells his adventures. The book recounts the fate of a man alone in a boat without a wheel on the oceans of the world and tells us what to do if we should ever encounter a blood-thirsty shark. What is life like on a small island with an active volcano? Where do ships which vanish in the Bermuda Triangle go? Is the Pacific Ocean really pacific, really calm? And how much does a koala weigh? As we read the accounts of these real-life adventures we find the answers to these questions. With drawings by the famous French cartoonist, François Denis.

## Aunt Alice's Book of Good Manners

Don't do that and don't touch this and so on and so on. How difficult it must be for young children to figure out what they are and are not supposed to do! If something's interesting or fun, or if it makes you laugh, then you probably shouldn't do it. And if you're supposed to do it, it's probably dreadfully dull. Aliz Mosonyi's book of etiquette conjures the old world of children and the ancient world of adults, though it is, in fact, about us. It is an adaptation of a popular, hundred-year-old children's etiquette book, to which Mosonyi has added amusing texts for children of today.

## Stories of Old Miss and her Car

"Once upon a time there was a car. The car belonged to Old Miss, and it was shiny and clean inside and out, because Old Miss liked things to be tidy and clean, and she liked her old car too." This is how Aliz Mosonyi's latest series of stories begins, stories for young and old, drivers and pedestrians, voyagers and armchair explorers. You'll come across drive-in cinemas, a postal worker, a queen, a porcelain dog and a real one, and everything else Old Miss encounters on journeys in her old car. Aliz Mosonyi's delicate humor is loved by children and adults alike.

## Torchlight Stories

*Torchlight Stories* contains five tales illustrated with captivating drawings by Bibor Timkó. Krisztina Tóth's flashlight illuminates hidden spots and unfamiliar creatures living in the city: the tiny mouse who operates the only traffic light of the city with no electricity or the secret snowman who lives in Lili's freezer in summertime. We are introduced to creatures who dwell in the subway—a huge, friendly centipede and a monster who eats children's boots—and we get a sneak peek into the nightlife of toys in the kindergarten.

An unusual guest comes to the Bowling Club. Robbie Hoof, the donkey, is looking for a job, and he's in luck, because the owner has just fired a greedy employee, a cleaner called Piglet. The club is buzzing about holding a birthday party for MC Chicken, the famous DJ, but in the end, Robi outshines the star and a video of him goes viral on Chook-Tube. Success, money, and glamor follow. Robi is a donkey with a big heart and a talent for the guitar, but will fame go to his head? The book offers an amusing and exciting modern children's story about success, fame, glamor, failure, and the important things in life. It also raises moral issues. What is more important, money or friendship? Can we remain true to ourselves, or will a change in our surroundings inevitably change us too?

## The Bruno's Tales series – Birthday

A birthday is usually one of the most exciting days of the year for a young child, and a child's first seven birthdays are perhaps the most special. This book presents the reader with memorable moments from Bruno's first seven birthdays, beginning with his birth. As the years pass, there are more and more candles on the birthday cake, and Bruno goes through rebellious years, times of questioning, the first year of kindergarten, and preparations for first grade. In the meantime, he gets to know more and more about the world around him, including the adults, the other children, his feelings, and how to handle them.

Volumes of the series: *Birthday*; *Young Sister*, *Older Brother*.

In Robot Country, the machines are as diverse and complex as we are. This poetically beautiful picture book explores the diversity of (human) emotions with text and illustrations by Jacqueline Molnár. With a mere smattering of sentences and her beautiful, richly humorous paintings, Molnár is able to show her reader how to cope with anger and sadness. Molnár was given a grant by the prestigious Institut Ramon Llull to create this book.

Volumes of the series: *Little Mimi and Blackthorn Kindergarten*, *Little Mimi*

*Becomes a Big Sister*, *Little Mimi and her Friends*, *Little Mimi*, *Little Bori*, *Little Mimi and the Ice Cream Holiday*, *Little Mimi's Christmas*.

## Stone of Snake – Hungarian Folktales from Bodrogek

Hungarian Folktales preserve the memory of ancient beliefs and legends. This book presents twenty-five stories which were collected from the region known as Bodrogek. The stories can be understood as local interpretations of traditional characters (the witch, the ghost, the spirit, the wise shepherd, etc.), and the tales also mark milestones of Hungarian history, including the Mongol invasion, Ottoman Turkish rule in Hungary, and Francis II Rákóczi's War of Independence. Rich illustrations conjure the mood of this distant world and make it seem close.

## The Stone of Patience – Persian Folktales

Discover the world of Persian Folktales! This collection introduces the reader to characters from history and the world of fiction: the King of Birds guides us through the upper and the lower worlds, the Oak Tree Fairy comes out of an orange, tricky ghosts and imps with beards forty meters long appear, and the main characters have famous supporters like Moses, Fatima, and Zainab. The book contains twenty-four stories, but it offers a well of wisdom about life and living.

## A Gift for Baby Fox

Babyfox visits Pussy but everything is different at Pussy's family then at home—but it is still fun to play together! Babyfox won't sleep—it's dark, he's thirsty, hungry, ha can't sleep—no wonder Mummyfox loses her temper! Babyfox spends a weekend with just Dad, when Mummyfox has to leave town. Just like the prequel, this book contains parent-child stories. Because while it's great to be a child or a parent, it can also be really hard! These sophisticated stories allow everyone to be cranky, tired and impatient, even to get angry and have a fight—so that they can all make up again.

## Once upon a never... — Twelve-and-a-half Grimm Tales

*Mother Holle, Cinderella, The Town Musicians of Bremen* – these are tales that have been read to children across generations. Aliz Mosonyi has now picked these stories up, brushed them down and presented them in the fresh light of contemporary children's fiction. Her refined humour and lightness of touch bring these legendary tales and much loved heroes a little bit closer to the modern audience, making them a delight to read and perfect to listen to. Winner of the HUBBY Prize, Kinga Rofusz has illustrated this delectable book with detailed and yet ethereal paintings that provide the perfect accompaniment to the music of these marvelous tales.

## A Heap of Grickles

“They're not grubs, and they're not pickles. They're not beans and they're not pebbles. They're Grickles! A Grickle looks like all kinds of things and it looks like nothing you've ever seen before. It can bounce like a rubber ball but it's not one. It's as colourful as a lollipop, but you can't eat it. There are big Grickles and little Grickles. Some Grickles are fat, others are thin. They're forever coming and going but you can never tell where from or where to...”

The Grickles set up home in a mound in the middle of a meadow. They like to roll around, laugh lots, laze around and stare at a spectacular sunset! András Dániel's haplessly humorous stories make young faces smile and amuse their parents, too!

## Play well! – 7 board games

Is there constant arguing and conflict between the children when they play together? The elder brother or sister always wins, and the younger never has the mood to play?

In this book you'll find 7 board games. Each of them is a tweaked, improved version of a classical game like mancala, chess or dama.

In the foreword parents and teachers learn how to simply and easily explain the rules and how to modify the game in order to give a chance to the inexperienced player. For each game there are three different extensions to the rules that help players with different abilities to play with equal chances. Everyone can play their best while the game remains exciting. The authors are educators specialized in gamification.

## Tale of the Busho

With the Busho Festival at the end of the Carnival season, Hungarians mark the passing of Winter and the beginning of Spring. This traditional folk custom was inscribed on the UNESCO Representative List of the Intangible Cultural Heritage of Humanity as one of the biggest celebrations in Hungary. The Bushos wear big carnival masks, dress up in costumes, arrive in flat boats, and march through the city making lots of noise. At dusk, they light a bonfire and dance around it.

## Dawn of the Master Sleepers

Milo is a quick-witted seventeen-year-old gamer who finds himself in a world much like the world of the Middle Ages, but with a magical twist. Here the Sleepmasters have taken upon themselves the burden of sleeping, enabling everyone else to work tirelessly. But now a thief is collecting their sacred bones, and no one knows why. The 224th sister of the Bonelacing Order of Ludovic seeks help from the last remaining Sleepmaster, while Vulgarus Pokk tries to save his beloved small town from a ruthless conquering army.

## The Shaman

For twenty years now, winter rules the world because Cilonda the witch hates all creatures dear to the Old God. Hope flares up when Kücsen the shaman is born. He is the chosen one who will someday defeat Cilonda, but first he has to survive three trials: he must beat the Black Bull, go to the kingdom of snakes and toads, and fight the fearsome Dragon. The Shaman is a gripping read for anyone interested in ancient, less familiar mythologies and anyone who believes in the power of good.

## Tales of Strawberry Garden

The heroes of Anikó Mészáros's book are modern female figures who could hardly be mistaken for fairytale damsels in distress. Rather, they forge their own destinies. They crave love, they indulge in hot cocoa, they sleep under canopies, and they fuss about everything. Lactose intolerance, express pigeon post, Wednesday balls, and evening board games. Mészáros's book offers us a modern tale which draws on both old and new "traditions". This fairytale provides a refuge with the scents of strawberries and happiness, just like Strawberry's little home.

## Wardrobe Dwellers

The twenty tales by Mónika Csík, a poet and writer from northern Serbia, are reminiscent of the stories of Wilhelm Hauff. Her newest book is a volume of fairytales the masterful rhythms and stories of which will bewitch the curious reader. There are thematic overlaps among the various tales, and characters reappear, making the stories enjoyable whether read together or separately. The heroes of *Wardrobe Dwellers*, however, are neither people who roam the globe nor cursed princes and princesses, but the stuff which "lives" in the depths of a wardrobe.

## Darkness is the Norm

Imagine that a ten-story building is on fire, and you are watching the horror from the top floor. Everyone around you has perished, the flames are getting ever closer, you feel completely alone, and within a matter of seconds, you too will be consumed by the blaze. You look out the window and you see darkness there as well, but then it dawns on you that maybe that's the easier solution: it won't hurt as much just to disappear the moment you hit the ground.

## Samu Suspects Something

Adults often think they need to dumb down their vocabulary when they are yacking away at us and that they need to slow down their babble for us to be able to understand them, but the fact is that we are the ones who don't trust them enough to talk to them honestly, openly, and at length.

## No One's Bird

A novel on the eternal first love between two extraordinary human beings, a sensitive Hungarian boy living on the Hungarian plain and a mysterious Japanese artist girl, a novel inspired by the old Japanese tale, *The Crane Wife*.

It is for anyone who does not fear the passion of loving embraces and who is willing to learn the essential truth: If you love a bird, you should be the sky, not a cage.
